

# INTERMEDIATE PIVOTS

## INTERMEDIATE PIVOTS

Intermediate pivots are intended for doors taller than 83" that require additional support to keep the middle of the door in line with the pivots at the top and bottom. For use on both flush face frame installations and 1/8" recessed door applications. The pivots cannot be used on center hung doors. Suitable for aluminum doors weighing up to 125 pounds.

### FEATURES:

- 3/4" offset application
- Precision Aluminum Diecast
- Doors up to 90" in height should use one intermediate pivot. We recommend another intermediate pivot for each additional 30"
- Full race ball bearing and Oilite Bronze bushing
- Case hardened pin to jamb portion fully retractable for ease of installation on the TH1120 / TH1121 only
- All intermediate pivots non-handed except TH1190
- Door thickness: 1 3/4"
- Easy vertical adjustment
- Finishes: AL, DU
